Return receipt

Neil- this is a followup to our telephone conversation today 8-31-01 regarding "additional customers". As soon as I get the information from Jay West and David Congos, I will forward to you for your review and appropriate action. Have a very good labor day weekend, and a safe trip to D.C. Are they ever going to hire you some help?

Subject: MTE FORESTY PROGRAMS (FOREST DEVELOPMENT/FOREST MANAGEMENT)

Mr. West-

This is a followup to our conversation last week regarding the forestry programs we have under Public Law 93-638 contracts with Menominee Tribal Enterprises. During our conversation you informed me that both you and Mr. David Congos, COR were aware of certain matters that may relate to issues of mismanagement, waste, fraud, or abuse by the Contractor of these Trust related programs being carried out under these two major Federal contracts.

I am formally requesting that both you and Mr. Congos provide me with a written narrative disclosing all information that you may have regarding this issue, so that I can take appropriate action. Please provide requested information by September 15, 2001. Communications on this matter should be held in confidence and limited to yourself, Mr. Congos, and the Supervisory Contract Specialist. Thank you in advance for your response to this matter.

Stuart S. Mani-Supervisory Contract Specialist
